Paris Congress Center
French and Francophone Wound Healing Society

WWW.CICATRISATIONS2020.ORG
The « 2020 Updates in Wound Technology » meeting will gather wound healing specialists from all over the world, under the auspices of the French Wound Healing Society (SFFPC).

This annual meeting will be held in Paris from Sunday 26 to Tuesday 28 January 2020 and will represent a unique opportunity to exchange up-to-date information concerning recently developed and brand new medical devices and concepts in wound management.

Europe being the place where most of the innovations are tested before being expanded to the rest of the world, Paris annual meeting will surely get the benefit of this increasing interest since more than a decade. Outstanding communications given by prestigious speakers will show new clinical results and recently published new technologies applied to wound healing.

THEMES SELECTED THIS YEAR BY THE SCIENTIFIC COMMITTEE WILL FOCUS ON 5 MAIN TOPICS:

› Wound healing practices in Europe
› Diabetic foot ulcer
› Research on scaffolds and new dressings
› Alternative therapy in hard to heal wound
› NPWT new devices

The International Symposium to be held on Sunday 26 January will cover News in wound healing all over the world and What's new session will focus on more European specificities.

Discussions born from these exchanges are since years a source of up-to-date information applicable on patients to enhance the quality of wound management in each stage of healing.
